## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hahnewald, et al. (US 4,986,173). Regarding claims 1 and 10, the case of Hahnewald, et al. inherently “rests on” or is slightly “supported” by the base (8) when the base is connected to the case. Regarding claim 11, the base and case are constructed to allow the base to be connected to the case by an inherent pivoting movement (by hand) of the case relative to the base. Thus, the features of the instantly rejected claims are structurally met by the reference.

### ***Allowable Subject Matter***

Claims 12-13 are allowable over the prior art.

Claim 14 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
